DLC Sultaniye Emir White 2013 Sultaniye, Emir Aegean, Cappadocia 12 x 750 ml

DLC Sultaniye-Emir is an aromatic, crisp, smooth dry wine, acquiring its pleasant aroma from fruity, but acidulous Sultaniye grapes and its structure and strength from Cappadocian Emir grapes. To reflect the fruity characteristics of the varieties at their maximum, during the production of this wine the grapes were not exposed to the pressing process and only the free-run juice was fermented. The smoothest wine of the DLC Series, DLC Sultaniye-Emir invokes green apple and tangerine aromas.

Named after the remarkable size of its grey-blue fruits; the lively, fruity character and the unique aroma of Öküzgözü (literally "ox's eye") varietal are fully reflected in DLC Öküzgözü. In order to express and preserve the delicate nuances of the varietal, this wine was oak aged for only 4 months in order to acquire a round, easy to drink, balanced and full bodied structure. A great companion for many occasions DLC Öküzgözü invokes the aromas of cherry, bilberry and caramel.

The Aegean soil gives a distinctive quality to the grapes used to make Kara Efe. Spirit made only with these grapes is triple distilled in pot stills with specially selected aniseed to bring out their unique flavor and rich aroma. Spring water from the Bozdag Mountain reveals the exceptionally smooth taste of this fine Raki, which is bottled at 47% alcohol.

Sari Zeybek

Double distilled with 100% grape alcohol then distilled twice in pot stills with anise seeds and matured in oak barrels.
San Francisco World Spirits Competition 2012 Double Gold Winner

750 ml

Sari Zeybek is made with grape alcohol triple distilled in pot stills, which is then distilled twice with aniseed. These anise seeds that give Sari Zeybek its superior smoothness are harvested from a specific region called Tefenni located in the Aegean Region of Turkey. Sari Zeybek is matured in oak barrels, where it takes on its unique color and aroma. You may enjoy Sari Zeybek by sipping it straight up when it is ice cold or by adding water and ice.
